

LEADING SOFTWARE FOR CEPHALOMETRIC ANALYSIS

NemoCeph
A BIOTECH DENTAL BRAND

Cephalometric Software

NEMOTEC
A BIOTECH DENTAL COMPANY

Nemoceph, what is this?

NemoCeph software is the most complete Orthodontic tool for diagnosis, treatment planning and case presentation to the patient. This software really becomes into the best tool for cephalometric analysis in your clinic.

NemoCeph is the leading software
for cephalometric analysis

How does it work?

Thanks to the point assistant, NemoCeph allows to trace a cephalometry in a matter of minutes. You will get a prediction of growth, areas of overlap and the cephalometric conversion automatically. They are automatic processes that make a difference in execution time, accuracy and perfection of the treatment.

Image processing tools allow you to clearly visualize bone and dental structures.

Why choose NemoCeph?

Choosing NemoCeph is betting on the precision, efficiency and speed that cephalometric analysis software offers.

SIMPLE AND QUICK

The software wizard allows the cephalometric tracing of a simple and intuitive way in just a few minutes.
You will be able to get a growth prediction, overlap areas and automatically cephalometric conversion.
